Braga Ranch/Sebastian Harvesting

SOP: Portable Toilet Leak

If minor or major leakage occurs in the field or a spill at equipment yard occurs, the field foreman shall immediately contact a supervisor and/or food safety representative.

Use what ever means necessary to contain leak.

Immediately take necessary steps to remove organic solids from surface area. This also includes removing topsoil and properly removing and disposing of tainted soil.

Soil will be tested in accordance to EPA regulations.

Leaking portable toilet shall be repaired or replaced.
